

How are Innovative Splashbacks different from the other Acrylic Splashbacks on the market?

We get asked this question a lot. It's simple really. It's like comparing a Fiat to a Mercedes. Sure both companies make cars, but that's where the similarity ends.

- ✓ For one we use top quality branded acrylic that has been used for over 80 years in commercial applications such as aircraft windows and windscreens, commercial aquariums, ice hockey protection screens and even bone cement. Having been around for 80 years, it is not a "new" product - It has a pedigree of durability like no other acrylic in the world which we are more than happy to boast about. Speaking of being the only in the world, the brand of acrylic we use has a no UV yellow warranty of 30 years – yes the only acrylic in the world with such a guarantee!
- ✓ Our acrylic won't yellow or crack – otherwise aircraft windows and windscreens world-wide would be falling apart.
- ✓ We use optically transparent acrylic – as clear as optical glass, which gives you a true representation of the colour.
- ✓ We spray paint to the rear of the acrylic – just like a glass splashback – which is why our acrylic splashbacks look exactly like glass splashbacks and not coloured plastic.
- ✓ Our acrylic is not "vampire" acrylic. It does not have a colour layer glued to the back of a clear layer. So it's not terrified of UV light or prone to colour fading with time.
- ✓ We can custom colour to any paint/tile/swatch colour you like without minimum order quantities. We've matched pretty much everything from car colours to colourbond roof colours, cabinet and even fabric colours for clients over the years.
- ✓ We cut-to-size so you only pay for what you need and it comes ready to install saving you time and \$\$\$.
- ✓ We delivery our acrylic splashbacks nationwide – direct to you – so you don't have to run around all over town to get your splashbacks.
- ✓ We have a super-quick turn around time, even for custom cut and custom colour orders.
- ✓ We have a 10 year warranty on our painted acrylic splashbacks and unlike the other acrylic splashbacks on the market that doesn't mean JUST a UV warranty.

So now you can see what we mean when we say the difference between our acrylic splashbacks and the rest is like comparing a Mercedes Benz to a Fiat. Top quality always lasts, you don't have headaches with high quality products (now or later) and we never take shortcuts or use cheap and nasty acrylic or lacquer alternatives.
