

LIGHTING CHECKLIST

DESIGN

- ☐ **Map out lighting zones:** General, task and accent
- ☐ **Choose** between downlights, pendants, LED strips, wall lights etc.
- ☐ Include adequate lighting in [kitchens](#), [bathrooms](#) and work areas

COMPLIANCE

- ☐ Use fittings [compliant](#) with AS/NZS 60598
- ☐ Ensure wet area lighting has an appropriate IP rating

INSTALLATION

- ☐ **Position switches logically:** Near entry or room exits
- ☐ **Fit** dimmers or sensors where appropriate
- ☐ Use [licensed electricians](#) for all installations

EFFICIENCY

- ☐ Choose [LED](#) for long life and low consumption
- ☐ Use [natural light](#) where possible to reduce reliance on artificial lighting
- ☐ Consider solar-powered outdoor lights
