

SOLAR POWER CHECKLIST

PLANNING

- ☐ [Assess](#) energy use and calculate system size
- ☐ [Choose](#) between grid-tied, hybrid or off-grid
- ☐ [Investigate rebates](#) and feed-in tariffs

DESIGN

- ☐ [Position](#) panels for maximum sun exposure:
Forth-facing preferred
- ☐ Design for minimum shading from trees or structures
- ☐ **Choose inverter type:** String, microinverter or hybrid

INSTALLATION

- ☐ Use a Clean Energy Council-accredited installer
- ☐ Ensure wiring meets AS/NZS 5033 and AS/NZS 4777
- ☐ Install safety switch and isolation devices

AFTERCARE

- ☐ Monitor output via app or web portal
- ☐ [Clean](#) panels every 6-12 months
- ☐ Check for signs of wear, corrosion or shading
