

COOLING CHECKLIST

SYSTEM CHOICE

- ☐ **Select system:** Ceiling fans, evaporative, split system or ducted
- ☐ **Calculate** room size and choose a correctly sized unit
- ☐ **Consider** inverter systems for energy savings

INSTALLATION

- ☐ Install condenser units with ventilation space
- ☐ Use insulated piping and concealed drainage
- ☐ Fit ceiling fans with the correct blade direction and clearance

CONTROLS

- ☐ **Install** wall-mounted or smart remotes
- ☐ Enable zoning if using ducted systems
- ☐ Program timers for efficient use

MAINTENANCE

- ☐ **Clean** filters every three months
- ☐ Service units annually
- ☐ Keep external condensers clear of debris
