

FLOOR CHECKLIST

PLANNING

- ☐ Choose flooring type: [Timber](#), [tile](#), [vinyl](#), laminate, [concrete](#), [carpet](#)
- ☐ Consider [durability](#), slip resistance and water resistance
- ☐ Ensure [subfloor](#) is level and dry

INSTALLATION

- ☐ Acclimatise timber or laminate boards before installation
- ☐ Lay underlay if required for [insulation](#) or moisture control
- ☐ Use appropriate adhesives or fixings

FINISHING

- ☐ Seal joints in wet areas
- ☐ Apply protective coatings to timber floors
- ☐ Install skirting boards or trims to finish edges
