

# WALL AND CEILING CHECKLIST

## PLANNING

- ☐ **Select wall construction:** Brick veneer, lightweight, solid brick, etc.
- ☐ Determine ceiling height and bulkhead requirements
- ☐ **Include soundproofing where needed:** For example, bathrooms, media rooms

## MATERIALS

- ☐ Use [moisture-resistant](#) plasterboard in wet areas
- ☐ Apply [insulation](#) to external and some internal walls
- ☐ Include appropriate vapour barriers

## INSTALLATION

- ☐ Frame to AS 1684 or AS 4100 standards
- ☐ Install noggings and bracing where required
- ☐ Ensure [plasterboard](#) joints are taped and finished cleanly

## FINISHING

- ☐ Prime and paint using mould-resistant products in wet areas
- ☐ Install cornices and skirting boards
- ☐ Confirm flush finishes and corner treatments
